The Charleston News.

SATURDAY, MAY 13, .1871.

-Gold at New York closed at 11 al 1 c. -The New York cotton market closed steady; uplands 15%c.; Orleans 16c.; sales

-At Liverpool cotton closed with a hardening tendency; uplands 7 dd.; Orlen is 7 dd.; sales 12,000 bales.

An Honest and Attractive Scheme.

"What is everybody's business is nobody's "business," and while the importance of fostering immigration is conceded on all hands, the great work languishes, as far as this State is concerned, for want of the cash working capital so indispensable for its prosecution. But the South Carolina Immigration Association, whose organization and aims have already had our warm commendation, is composed of live and resolute men whem obstacles cannot balk in the execution of their self imposed task of peopling the millions of rich but idle acres in our State with hardy and thrifty settlers from other climes. Finding that the poverty of our people gave little prospect of raising by subscription the funds needed to give an impetus to their enterprise, they have hit upon the expedient of a series of Gift Concerts, to begin in Charleston in October, the ticket-holders of which will be participants in the grandest and most attractive drawing ever held in our State. The first prize will be the splendid Academy of Music property which was built at a cost of \$230,000, and which, besides stores; music halls, saloons, &c., contains the brightest and most beautiful temple of the drama in the South. The second prize will be One Hundred Thousand Dollars in cash. A long list of other cash prizes makes up the grand aggregate of Five Hundred Thousand Dollars, to be distributed among the ticket-holders. The number of tickets issued will be 150,000, and the price will be five dollars each.

There can be no doubt of the extraordi nary popularity which the scheme is destined to attain. Some idea of this may be formed from the circumstance that over twothirds of the tickets have been engaged in advance by agents at the North and in California. But the features of the drawing, which will enable it to contrast most favorably with the Crosby Opera-House Lottery, in Chicago, and other similar schemes, are: 1st. Its unqualified endorsement by a large number of the best known and most respected citizens in the State; 2d. The fact that it will be managed by gentlemen whose names are a guarantee that the drawing will be conducted with strict honor and fairness: and 3d. The end sought to be gained, which is one that must enlist the sympathy of every friend of South Carolina and the South.

The last consideration, indeed, elevates the enterprise from the rank of a private speculation to that of a project of vast public importance. We want and hust-have those small farmers whose labor constitutes the true wealth of a State. And if the gentlemen of the Immigration Society succeed in bringing them bither, nobody will be disposed to criticise the plan by which they accomplish the feat.

Assessment vs. Vulue.

The Marlboro' Times, published in Bennettsville, is perhaps as thoroughly "recon-"structed" as any paper in Souta Carolina. Week after week its editorials counsel forbearance, suggesting that after all things are not so very bad-might be a great deal worse, &c. We were not a little surprised, therefore, to find in its last issue some remarks not entirely in harmony with the key-note indicated above. It publishes the following statement of the assessed value of property in that county, as furnished by the auditor:

Number of acres of land..... Assessed value of land \$1,378 962
Assessed value of buildings 294,397 Assessed value of town property. 68,000 Assessed value of personal property. 610,489 Amount of State tax for the year 1870.21,165,822 Amount of county tax for the year Amount of poll tax (estimated) ... 7,055,274
Amount of texas 1.637 Amount of taxes paid up to April 1st, 1871 :

State\$17.548 61

Upon the foregoing exhibit the Times re-

marks:

"It will be seen from the above figures that the lands in this county are valued at over five dollars per acre. And the value of the buildings upon the land does not enter into this calculation, for buildings form a separate item. Two dollars and a half per acre, not quite half of the assessed value of lands in this county, would be a high valuation. We know there are some valuable lands in Mariboro', but we are equally well aware that there is much sandhill land, and a great deal of flat, swampy and marshy land that is totally unfit for cultivation, or anything else, except to take up so much space.

"We know full well that our State govern ment cannot be carried on without money, and that money must be raised by taxation; but when property is assessed for the purpose of being taxed, it should be assessed at its true value. It may be said that it is necessary to raise a certain amount of money, and that in order to do so property must be assessed at a high figure. We are unable to see the force of this reasoning. Suppose, for instance, that Marlboro' County is taxed for State purposes to the amount of \$21,165,822, and for county purposes to the amount of \$7,055.274, for the year 1870. Why is it necessary that property in Marlboro' should be assessed at twice its value in order to levy this tax? Why not call things by their right names, and when people are made to pay a State tax of \$21,165.822, and a county tax of \$7,055,274 upon prop rty that is not really worth more than \$1,175,879, it that, say they are taxed twenty-four mills and not twelve mills upon the dollar? It is the high assessment of property is the work of our Druggists, and by GOODRICH, WINEMAN & CO., corrupt rulers, who wish to keep the people of | Charleston, S. C.

the country at large in ignorance of the high percentage of property they are yearly wring-ing from the necessitles of a crushed and impoverished people."

THE proprietor of the Yorkville Enquirer offers \$300 in prizes for the best original stories delivered to him by the 15th of October, 1871. For further particulars address L. M. Grist, Yorkville, S. C. Here is a fine chance for ambitious literary aspirants. Three hundred dollars is a good deal of money to make during the dull summer

Special Monices.

PERSECUTED ORGAN.-THE human stomach has been a shamefully persecuted organ There was a time when for every direlection of duty it was punished with huge doses of the most disgusting and nauseous drugs. In vain it rejected them, and literally returned them upon the hands of those who administered them. They were forced upon it again and again, until

The world is wiser now than it was in that drasticera, when furious purgation and mercurial salivation were what Artemus Ward would have called the 'main bolt' of the faculty, in cases of dyspepsia and liver complaint.

The great modern remedy for indigestion and

billousness is HOSTETTER'S STOMACH BIT. TERS, a prevaration which has the merit of combining's palatable flavor with such tonic, aperient and anti-billous properties, as were never here tofore united in any medicine. It has been discovered, at last, that sick people

are not like the fabled Titans, who found prostration so refreshing that, when knicked down, they rose from the earth twice as vigorous as before. When an invalid is prostrated by powerful deplet ing drugs he is apt to stay prostrated; and the de bilitated being aware of the fact, prefer the buildng up to the knocking down system of treatment. BOSTETTER'S BITTERS meets the require ments of the rational med cal philosophy which at present prevails. It is a perfectly pure veg etable remedy, embracing the three impertant properriesof a preventive, a tonic and an altera sive It fortides the body against disease, invigorates and revital zes the torpid stomach and liver, and effects a most salutary change in the entire sys-

tem when in a morbid condition. In this country where the enfeebling temperature renders the human organization particularly susceptible to unwholesome atmospheric laftuences, the Bitters should be taken as a protection age nst epidemicalisease. - may 13 6pac

WARRANTED INFALLIBLE-TIME DOES NOT IMPAIR ITS EFFICIENCY .-MILLINGS'S COMPOUND BUG DESTROYER, prepared only by R. C.
